Art Unit 1733

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 9-11, drawn to a carcass structure for vehicle wheel tires according to claim 9 wherein the first and the second series of strip segments are arranged in a mutually-alternated sequence along the circumferential development of the toroidal support.

Group II, claim(s) 9 and 12-14, drawn to a carcass structure for vehicle wheel tires according to claim 9 wherein the second annular insert and the at least one third annular insert present a lesser radial extension than a radial extension of the first annular insert.

Group III, claim(s) 9, 15, and 16, drawn to a carcass structure for vehicle wheel tires according to claim 9 further comprising an auxiliary filling body made of elastomeric material disposed in an axially-exterior position against the at least one carcass ply and extending radially away from the at least one third annular insert.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The subject matter of claim 9 linking the groups together does not distinguish over the prior art as evidenced by EP 0 928 680 A1 cited by applicants (obvious to provide such a conventional additional portion (which does not yet distinguish over a conventional additional bead core for anchoring the carcass) in the EP '680 tire carcass structure) and therefore cannot serve as a common special technical feature.

3. A telephone call was made to Lawrence Galvin on September 30, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
